

# "THE BUZZ"

July, 2025

Glory Bee's Sewing Center

*Hello to all our customers, and a special welcome to our new customers! With the "lazy days of summer" in full swing, it's time to relax and enjoy some new sewing projects. Many new fabric choices have been added to our shelves recently, so treat yourself to a trip to the shop to see what you need to add to your collection as well as the projects that are on display in our classroom.*

## RECENT CLASS

Our Janome Embroidery Club met recently to explore new ways to use their machines. These bowl cozies were constructed in the hoop using decorative stitches to add texture and interest to the finished product. Congratulations to our class participants who now have the skills to make these cozies for themselves or to give as gifts.

Have you been looking for some pastels to complement other fabrics in your quilts? Are you starting a baby quilt that will need some soft colors? We recently received many bolts of luscious fabrics with small patterns, dots, and other motifs that may be exactly what you need. Come in to see what's new on the shelves!

This month's notion is **2" Batting Tape** by **Callie Del**. This tape will enable you to join pieces of batting together to fit your larger quilts. Also, you can use it to join batting scraps for your smaller projects to reduce waste. This is a lightweight stabilizer that will not add bulk to your project. Mention you saw this product in "**The Buzz**" and receive a 10% discount off the price.

SERVICE CENTER SUGGESTION

Chuck, our Service Center Manager, says he sometimes has questions from our customers regarding oiling their machines. In most cases, the oiling will take place during the annual clean and lubrication that is done in the shop. Customers only need to oil their own machines when the manual specifically instructs them to do so. If you have any questions regarding this, please call or stop by the shop to speak with Chuck.

NEW  
PANEL

Too early to think about Halloween?? Not really—we just received a new panel by “The Boo Crew” with fabric pieces to make these 2 cute tote bags! All instructions are printed on the panel, and there is even a name tag section to cut and stitch into the bag. Get the panel now to be ready for fall!

DEB'S  
TIP

Deb reminds us to make certain to use SF 101 ironed on to the back of fabric whenever we are doing heavy stitch embroidery designs. Doing this will prevent the project from puckering and will produce a much better result. If you are unfamiliar with this stabilizer, we would be happy to show you how to use it.
