

“THE BUZZ”

May, 2026

Glory Bee's Sewing Center

Hello, to all our customers! Our shop is brimming with new fabrics, quilt designs, threads, notions, and other inspirations. More batiks have been added to our shelves, as well as some “white on white” fabrics that can provide a unique look to your next project. Check out our classes so you can enjoy a full day of sewing while you learn some new techniques!

We cannot wait to show you our new fabric arrivals! Our ShadowPlay collection has been so popular that we have had to order more. We now have many soft pastel colors (see below) as well as the bolder shades that add so much to quilts, table runners, and more. Stop in to see them and bring samples of the fabrics you are trying to match. We will be happy to find just the right shade for you.

Just arrived!! This canvas fabric is from *Maywood Studios* with 3 different patterns. It is sturdy, durable, yet easy-to-sew and will make wonderful tote bags, lunch bags, duffel bags, zipper pouches or other projects that need this type of fabric. Come in to see the colorful patterns and feel the texture—it will inspire you to start a new sewing adventure.

As was mentioned in last month's edition of *The Buzz*, we have added a third Sewing Club to our class schedule. This one is meeting on the third Thursday of each month. There are still some spaces left, so if you are interested, please stop in or call the shop for more information. These clubs are open to all skills levels.

Below are some of the zipper pouch projects made by our other two Sewing Club sections.

There are also some spaces left in our two Embroidery Clubs. All of our clubs provide you with an opportunity to learn more about your machine and sewing in general, and offer you a day of creativity and enjoyment! Come join us.

This month's notion is the **Machine Needle Inserter and Threader** by ***Dritz***. Changing a worn out or broken needle can be challenging, but with this handy tool, you will be back on your way to sewing in no time. It actually holds the needle for you so you can insert it easily and tighten the screw. Also, the other end will thread a sewing machine needle easily and quickly. Mention you saw this notion in *The Buzz* and receive a **10% discount** off the regular price!

Chuck, our Service Center Manager, says that you may want to try using a thread stand when you are sewing. It will accommodate the giant spools of thread, and it allows the thread to pull off smoothly and easily. Just make certain that you place the stand off to the side, clear of anything that may cause the thread to snag. We have these in stock now—stop in so we can show you.

Have you ever noticed that no matter how careful you are, fabric that you are cutting is not precise? Perhaps the problem is your ruler. Over time the edge of rulers can wear down or become chipped. Your cuts will not be exact which may lead to problems in piecing. Check the ruler—it may be time for a new one! You can continue to use the older one when exact cutting is not necessary.

MAY CLASSES

Please Note: Glory Bee's can no longer provide rulers and rotary cutters in the classroom. Cutting tables and ironing boards are still available for your use. Please label all of your tools and other accessories with your name, and check our Lost and Found if you are missing items. We will hold leftover items for 30 days.
